3-layer printing technology for color conversion

The unique color + white + color printing mode provides consistent color performance with or without lighting. It works as alternative solution for double-sided printing and is suitable for light box applications with fine details.

4 Ricoh G5i Print Heads Array

Equipped with 4 industrial Ricoh G5i print heads with staggered array, GD3000UV achieves high-speed production, improves customer margin. It performs well in case of high speed or low resolution with guaranteed image quality.

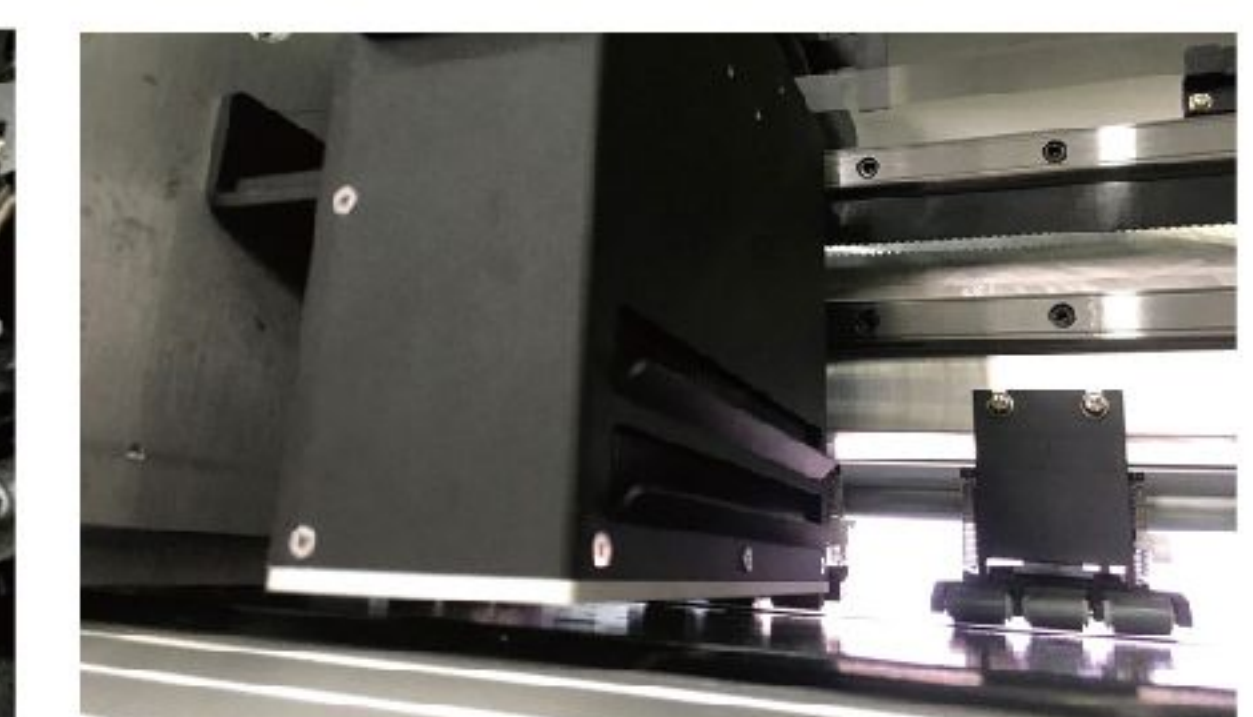

- Ricoh G5i print head adopts gray level piezoelectric nozzle technology with variable dots and 3pl droplet size, can print with photo level precision.
- Ricoh G5i print head is made of stainless steel which is not easy to corrode or clog.
- 1.6m UV Printer with white, 4 color, white+4 color multi-modes to choose from
